[PC Cleaner – Free Download Total Onesafe Cleaner Latest Version {2020}](#)

The image displays the OneSafe PC Cleaner software interface and its corresponding download page. The software window, titled "OneSafe PC Cleaner", features a blue header with the logo and a navigation bar with tabs: Home, Registry, Clean Up, and Optimize. The "Clean Up" tab is active, showing a message: "Clean Up - Keep your PC clean and secure by removing junk files and potential privacy risks. Speed up computer startup by reducing the number of programs in your startup menu." Below this, a sidebar lists five categories with icons: Manage startup (power icon), Privacy scan (shield icon), Broken shortcuts (link icon), Junk files (trash icon), and Large files (box icon). The main area shows a "Start Scan" button and a "Computer Status" section with the following details:

| Computer | OS | System type | Memory (RAM) |
|----------|-----------|-------------|--------------|
| Dell | Windows 7 | 64 bit | 3.96 GB |

The "Computer Status" section also indicates that the following items can be cleared:

| Item | Status | Registry items | Junk files |
|--------------------|------------|----------------|------------|
| OneSafe PC Cleaner | Registered | 0 | 12 |

The download page on the right shows the software version 4.1, a "Download" button, a rating of 5 stars from 106 votes, and a "Rate it!" button. It also includes social media links for Facebook, Twitter, and Google+. The page footer mentions "2SPYWAR" and "LARGE FILES".
